ABOUT ME

I'm an UI/UX designer based in Bangladesh with Graduation in Computer Science Engineering from IUBAT having over 2 years of experience in delivering user-centric designs for website, dashboard, web and mobile applications. My focus is on creating engaging and innovative user experiences to drive tangible results. Proficient in wireframing, prototyping, Design system, product design and various design elements . I mostly worked with International clients ,I have experience on working a lot of websites & mobile apps for gaming industry and AI & AR based products .I love to design minimal trendy UI with most engageable UX. I excel in tools like Figma to bring concepts to life.
